

The aim of this workshop is to increase awareness and appreciation of the achievements of women in the area of forensic computing/digital forensics. This workshop wishes to be a forum to help women build their technical confidence and thereby attract more female researchers to the field.

Planned programme is 3 invited talks (45 minutes) by

- Luisa Verdoliva, University Federico II of Naples, Italy
- Marion Liegl, independent expert witness, SEICpro, Germany
- Vinti Agarwal, NTNU, Norway
